

Don't miss this
exceptional weekend workshop with

David Hoban, M.D.
Gestalt Therapist, Santa Cruz, Ca. USA

David Hoban is a psychiatrist and Gestalt Therapist. He was trained by Jim Simkin, Ph.D as his apprentice for over 13 years, and has worked in depth with Abe Levitsky, PhD. He has been training therapists since 1978 in Europe and Australia as well as the United States. By his own description, he is haughty and generous in style. He prefers to work with trainees whose interest in the mysterious, the profound, and the new is tempered by a desire to discover what there is to be found.

"I am committed to the notion that self-development is the means to learning how best to work with clients.

*Although this is not the easiest route, to me it is the only real one.
I believe I have to offer a uniqueness of perspective and creativity to contribute to your efforts at self-discovery and learning how to learn." (David Hoban)*

David's teaching style is creative, witty, eye opening, and leads the individual to new perspectives.

For more information about David Hoban see:
www.centerfortherapistdevelopment.com
